

Garritan[®]

personal orchestra[®] 5

System Requirements

Windows[®]

Microsoft Windows 7 or later. Audio interface compatible with ASIO™ or DirectSound.

Macintosh[®]

Mac OS X 10.8 or later

Both

Multi-core processor recommended.

4GB RAM minimum.

At least 16GB of free hard drive space.

Dedicated hard drive with a speed of at least 7200 RPM recommended; SSD is preferred.

Internet connection required for download version, updates, and online registration.

USB port required for boxed product installation.

Optional

A MIDI interface may be required if you are using a MIDI keyboard. Many keyboards now use USB.

The ability to assign controllers within your keyboard, music program, or sequencer is recommended.

High-quality speakers and amplifier, or high-quality headphones.

The Garritan Personal Orchestra 5 sound library is AAX, VST, and AU compatible, and is proudly powered by the ARIA Player. There's no need to purchase a separate sampler.
